SUSQUEHANNA STEAM ELECTRIC STATION
APPENDIX F TO SSER NO. 5
ER 100508 FILE 841-2
PLA-1700

Docket No. 50-388

Dear Mr. Schwencer:

Appendix F of the SSER No. 5 requires a written commitment that all Human Engineering Discrepancies (HED) corrections applied to the Unit 1 control room will also be incorporated into the Unit 2 control room. The 42 HEDs mentioned were generated from the Preliminary Design Assessment (PDA) and the NRC control room audit of Unit 1.

The intent of this letter is to establish PP&L's commitment to correct the aforementioned HEDs, in the Unit 2 control room, prior to fuel load.

Per Generic Letter 82-33 requirements, PP&L has submitted a schedule for meeting the requirements of a Detailed Control Room Design Review. This schedule incorporates reviewing the Unit 2 control room, as well as a schedule for HED resolution.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction-Nuclear
