Docket No. 50-387

Dear Mr. Schwencer:

On July 22, 1983, PLA-1757 and on July 26, 1983, PLA-1760, Pennsylvania Power & Light Company proposed a change in the Main Steamline Radiation-High setpoint.

The change to the setpoint was requested as a temporary change, however, we have reconsidered this request and are now requesting that the setpoint change be made a permanent change. The information contained in the above referenced letters provides sufficient justification to warrant a permanent change to the Technical Specifications. Therefore, please process the proposed change in accordance with 10CFR50.91.

If you have any questions, please contact us.

Very truly yours,

N. W. Curtis
Vice President-Engineering and Construction-Nuclear
