Docket Nos. 50-387
50-388

Dear Mr. Schwencer:

As requested by your staff, this letter provides information which clarifies our response to Generic Letter 82-33. In our response to Generic Letter 82-33, PLA-1621 dated 4/15/83, we stated that our Emergency Response Facilities are complete and operational. These facilities are complete and operational with all the existing data acquisition systems in place but do not meet the definition of complete and operational as proposed by Generic Letter 82-33 as clarified by our Project Manager. These facilities will be, as shown on the integrated plan, complete and operational with all proposed systems and displays operational by May 14, 1985.

If you need any additional clarification, please contact us.

Very truly yours,

N. W. Curtis
Vice President-Engineering and Construction-Nuclear
