Docket No. 50-387

Dear Dr. Murley:

Two copies of the Susquehanna SES Unit 1 Supplementary Startup Report are attached. The report addresses the events and retesting performed following the Pre-Commercial Operations Outage and the commencement of commercial power operations. This supplementary report is submitted in accordance with Technical Specifications Section 6.9.1.3, and incorporates all outstanding events not previously addressed in the Startup Report, submitted June 10, 1983.

Very truly yours,

B. D. Kenyon
Vice President-Nuclear Operations
