SUSQUEHANNA STEAM ELECTRIC STATION
SER SUPPLEMENT 5, SECTION 1.10
ITEM (10)-CONTAINMENT PURGE SYSTEM
ER 100508 FILE 841-2
PLA-1840

Docket No. 50-388

Dear Mr. Schwencer:

In Section 1.10 of Susquehanna SES SER Supplement 5, the NRC provided a list of issues for which a condition was included in Operating License NPF-14 for Unit 1 and for which a license condition would be required for Unit 2 unless satisfactory resolution was reached on the issues before licensing. This letter provides information to resolve one (1) of those proposed License Conditions.

ITEM (10): Containment Purge System

Reference: Section 6.2.4.3; SER
Unit 1 License Condition 2.C. (24)

PP&L has completed the installation of debris screens on the drywell containment purge system on Unit 2 to prevent blocking of the purge and vent valves by debris produced during an accident.

This completes PP&L's actions for this item for Unit 2 and eliminates the need for a license condition in the Susquehanna SES Unit 2 operating license.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction-Nuclear
