PLE- 4314

Dear Ms. Whitcraft:

This letter is to inform you that the Susquehanna Riverlands Recreation Area potable water supply, PWS E.D. No. 2400995 has been shut down for the winter and will not reopen until late March or early April 1984. Due to the closing, no bacteriological samples were collected during the fourth quarter of 1983, and none will be collected during the first quarter of 1984. This shutdown will occur annually and therefore, future bacteriological samples will be collected only during the second and third quarters.

If you have any questions please contact me at (215) 770-7889.

Respectfully yours,
