SUSQUEHANNA STEAM ELECTRIC STATION  
SCHEDULE FOR COMPLETION OF R.G. 1.97  
REQUIREMENTS  
ER 100450 FILE 841-1  
PLA-2081

Docket No. 50-387  
50-388

Dear Mr. Schwencer:

In response to the staff's request for a schedule for completion of the Regulatory Guide 1.97 requirements, Pennsylvania Power & Light Company offers the following:

For Susquehanna SES Units 1 and 2, the exceptions to our letter dated November 13, 1981 presented in your letter dated December 30, 1983 will be addressed in May, 1984 in response to Generic Letter 82-33 with respect to Regulatory Guide 1.97. If any additional equipment needs to be replaced, a schedule will be agreed to at the time of resolution. We would anticipate that for Unit 2 this equipment could be installed prior to startup following the first refueling outage since an outage is generally needed for installation of this type of equipment. The schedule for the completion of the first refueling outage on Unit 2 is September 1986. On Unit 1, equipment could be replaced during the first refueling outage if qualified equipment were available.

If you have any questions, please contact us.

Very truly yours,

N. W. Curtis  
Vice President-Engineering & Construction-Nuclear
