

MAR 21 1984

Docket No. 50-388

MEMORANDUM FOR: Thomas M. Novak, Assistant Director
for Licensing
Division of Licensing

FROM: Frank J. Miraglia, Assistant Director
for Safety Assessment
Division of Licensing

SUBJECT: APPENDIX A TECHNICAL SPECIFICATIONS FOR
SUSQUEHANNA UNIT 2 OPERATING LICENSE

The subject Technical Specifications are enclosed for incorporation in the Susquehanna Unit 2 operating license.

The Unit 2 Technical Specifications were developed utilizing the Unit 1 Technical Specifications as a basis. They reflect design differences between Units 1 and 2, new regulatory requirements, and operating experience not already incorporated in the Unit 1 Technical Specifications.

These Technical Specifications were provided to the applicant for review in final draft form, incorporate the applicants' comments thereon, and have been certified by the applicant to accurately reflect the plant, FSAR as supplemented, and SER.

If you have any questions or if we can be of further assistance, please contact Donald R. Hoffman (x28518) of the Standardization and Special Projects Branch.
