PERMIT NO. NABOP-F/4 (PERMIT NO. 4076707, 12/8/78-PA. DER)
CCN 741326 FILE 012
PLE- 5361

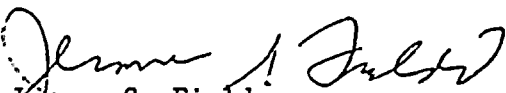

Dear Mr. Leedom:

Pursuant to our telephone conversation of July 16, 1984, the Pennsylvania Power and Light Company (PP&L) requests permission to discharge ten (10) cubic yards of river silt and sediment from the Susquehanna Electric Station discharge diffuser into the Susquehanna River. This activity was previously conducted in August 1983 and probably will be an annual maintenance activity.

A work plan was previously submitted to the Department of the Army, Baltimore District, Corps of Engineers, on August 1, 1983 (PLE-3558). This 1983 maintenance activity was conducted in an environmentally-sound manner and the 1984 maintenance will also be conducted accordingly. Plans are to conduct this activity in late July or early August 1984.

If you have any questions, please contact me at (215) 770-7889.

Respectfully yours,

Jerome S. Fields
