SUSQUEHANNA STEAM ELECTRIC STATION
PROPOSED AMENDMENT 56 TO LICENSE NO. NPF-14
ER 100450 FILE 841-8
PLA-2359

Docket No. 50-387

Dear Mr. Schwencer:

The purpose of this letter is to propose changes to the Susquehanna SES Unit 1 Technical Specifications. The attached marked-up pages reflect the changes necessary to support the modifications required to comply with License Condition 2.C.(17)(b)(2).

As such, this change is an example of an amendment not likely to involve significant hazards considerations per 48FR14870, paragraph (vii).

Since the subject modifications will be performed during the first refueling outage of Unit 1, we request that your approval be conditioned to become effective prior to startup following that outage.

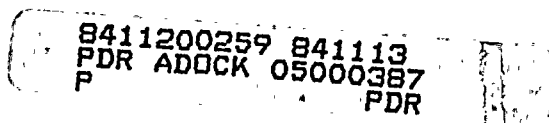

Pursuant to 10CFR170.22, the appropriate fee is enclosed. Any questions on this proposal should be directed to Mr. R. Sgarro at (215) 770-7855.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction-Nuclear
