Dear Ms. Beardsley:

Revisions were made to the Mississippi State Board of Health regulations after the Nuclear Regulatory Commission's review identified in a letter dated July 9, 2013. The regulations have been revised again to incorporate your previous comments and requirements of the equivalent regulations to State Regulation Status (SRS) Data Sheet, RATS ID: 2001-1, 2004-1, 2007-3, and various provisions (renumbering of state regulations).

We understand that if the Mississippi State Board of Health regulations were adopted, incorporating RATS ID: 2001-1, 2004-1, 2007-3, and various provisions (renumbering of state regulations), without significant change, the regulations would meet the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Programs (FSME) Procedure SA-200. The corrections and changes to our regulations are being sent to you by way of email.

If you have any questions, please contact me at 601-987-6893.

Sincerely,
