RE: License Transfer 13-35286-01

TO: Materials Licensing Branch  
U.S. Nuclear regulatory Commission, Region III  
2443 Warrenville Road, Suite 210  
Lisle, IL 60532

ERP Iron Ore, LLC is requesting a Transfer of Control of License Number 13-35286-01. Mag Pellet closed in October 2016 and the devices were shuttered and locked by the RSO on record, Mike Morse, and they have remained in that condition since. The facility is currently idled.

Please find the requested information as requested: NUREG 1556 Vol.15 Appendix E, below.

1. All assets of Mag Pellet have been acquired by ERP Iron Ore, LLC including but not limited to the licensed nuclear devices onsite at 64 E 100 N Reynolds, IN 47980. The only thing affected is the name of the owner.
2. Mark Luttrell RSO Certificate number 1447657218 was a former employee of Mag Pellet is familiar with the program already in place for the devices and is to be the RSO for ERP Iron Ore, LLC.
3. N/A
4. The Pellet Plant has been idled since October 2016, all nuclear devices are shuttered and locked and their respective areas are secured from entrance by anyone. There is no known contamination. I only recently received the keys for these locks and the records related to the site from the former RSO. I sent the survey meter out for its annual calibration and when it is returned I will perform the required inventory and leak tests which are nearly due.
