Potesta & Associates, Inc.
License No.: 47-25389-01
Docket No: 03034428
Control No: 594741

Mr. Chris Grose:

This refers to your application request to renew your license dated May 9, 2017. In order to continue our review of your request, the following additional information is needed:

1. In your application it only lists one location that licensed material will be used or possessed. On your current license, there lists two locations for locations that licensed material will be used or possessed. Please clarify if you intend to store and use licensed material at the locations listed on your current license.
2. Please submit a facility diagram for each permanent portable gauge storage location. Include on the diagram the use of adjacent areas, including above and below if applicable.
3. In your application, your Radiation Safety Program procedure, "Operations" section, step 4 is missing. Please re-submit this section with step 4.
4. Please state whether you will possess and use or have access to and use, a radiation survey meter that meets the criteria in the section titled, "Radiation Safety Program – Radiation Safety Instruments" in NUREG-1556, Vol. 1, Rev. 2, "Consolidated Guidance About Materials License: Program Specific Guidance About Portable Gauge Licenses," in the event of an incident.
5. In your application, your Radiation Safety Program procedure, "Emergency Telephone Numbers", please replace the NRC Region III phone number with the NRC Headquarters Operation Officer – (301) 816-5100.

Your reply must be an originally signed and dated letter. The letter may be scanned and submitted as a pdf document attached to an email; or it may be transmitted by facsimile to (610) 337-5269; or it may be sent by regular mail. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application request.

Please respond by e-mail to acknowledge that you have received the e-mail request for additional information.

If you have any question regarding the above, you can access the NRC's NUREG-1556, Vol. 1, Rev. 2, "Consolidated Guidance About Materials License: Program Specific Guidance About Portable Gauge Licenses" at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/> or contact me at the below number.
