Subject: [External_Sender] Clinch River Site Docket ID NRC-2016-0119

Dear Sir and Madam:

I have read reports of a Small Modular Reactor that is going to be installed at the Clinch River Site near Kingston, TN. I heard about this from Southern Alliance for Clean Energy. I agree with their position - this reactor is not needed and is certainly not "clean" energy for our area or our country. This small reactor will still produce long-lived and highly radioactive nuclear waste. Since there is no safe way to store nuclear waste and no safe way to clean it up if a nuclear waste spill happens (see Fukushima) it is highly irresponsible to create more of it. It is also quite stupid to do that. Extremely stupid, in fact.

I do not want a reactor, small or not, built in Tennessee or anywhere else. It is time to stop building any nuclear plants and it is time to stop making nuclear waste.

Please do not approve this plan from the TVA.

Sincerely,
Susan Oehler
