Subject: [External_Sender] Clinch River nuclear plant

Dear Ms. Bladey:

I am writing to comment on the proposed nuclear plant on the Clinch River near Knoxville, TN. Actually I am a little surprised that a nuclear plant is even being considered, since they are prohibitively expensive especially compared to renewables such as solar and wind. I am concerned about not only the cost, but mainly the long-lived radioactive nuclear waste, which there is no known way to store safely. As a public health professional, I am worried about keeping these highly toxic materials out of the air and water for generations to come. The TVA is seeking approval even before the reactor designs have been studied, and this is unconscionable to me.

Please turn down this proposal to build SMRs.

Thank you,

Cathy Holt
