PLE-7975

This letter addresses Pennsylvania Department of Environmental Resources (Pa DER) requests in a letter dated December 27, 1985, to Mr. H. W. Keiser of the Pennsylvania Power and Light Company (PP&L) relating to a public water supply permit application submitted by PP&L for the Susquehanna Steam Electric Station (Application No. 4085504, CP No. 4461). As requested by you in our phone conversation on January 13, 1986, we are informing the Pa DER of PP&L's current plans to dispose of filtered reactivator and neutralization basin sludge. A temporary mobile filter will be provided by Arrowhead Industrial Water (Arrowhead) for 1986 to collect this sludge. Arrowhead will transport the used filters to their Fallsington, PA, address where they will be backwashed. The backwashed material will be deposited in a municipal sewer at their facility.

Additional information relating to the disposal of the sludge can be obtained as follows:

Arrowhead Industrial Water  
c/o John Bossler  
95 Lower Morrisville Road  
Fallsington, PA 19054  
(215) 295-0700

If you have any additional questions, contact me at (215) 770-7887.

Respectfully yours,

John B. Hansell, Jr.
