1. The purpose of this document is to provide a comprehensive overview of the current status of the project. It is intended for the use of management and other stakeholders who are involved in the project's execution.

2. The project has been initiated and is currently in the planning phase. The primary objective is to develop a detailed project plan that outlines the scope, schedule, and resources required for successful completion.

3. The project team has been assembled and is working closely with the sponsor to define the project's goals and objectives. Regular communication and reporting will be maintained throughout the project's lifecycle.

4. The project is expected to be completed by the end of the fiscal year. Any changes to the project plan or schedule will be communicated to all stakeholders in a timely manner.

PLA-2601

Docket No. 50-387

Reference: PLA-2585, H. W. Keiser to E. Adensam, dated Jan. 16, 1986.

Dear Ms. Adensam:

The referenced letter proposed changes to the Susquehanna SES Unit 1 Technical Specifications in support of the Cycle 3 reload on that unit. The restart date provided to you in that letter was incorrect; we are currently scheduled to restart the unit on April 18, 1986.

If you have any questions on this change, please contact Mr. R. Sgarro at (215) 770-7855.

Very truly yours,

H. W. Keiser  
Vice President-Nuclear Operations
