CCN 741326 FILE R9-7
PLE-8235

Dear Mr. Geary:

The Pennsylvania Power and Light Co. (PP&L) is responding to the Pennsylvania Dept. of Environmental Resources (Pa DER) letter received on March 20, 1986 concerning your review of a Module #1 application for disposal of water treatment residue. At present the water treatment filtration and sludge collection systems are not operational and therefore we are unable to collect sludge samples. PP&L is reviewing alternatives for treatment of this waste stream and requests that this application be placed on hold until a treatment method is finalized. PP&L will provide equipment information as well as analysis of solids content of the sludge as soon as this information is available.

If you have any questions please call me at (215) 770-7889.

Respectfully yours,

Jerome S. Fields

Pennsylvania Power & Light Company
Attention: Jerome S. Fields,
Senior Environmental Scientist - Nuclear
Two North Ninth Street
Allentown, PA 18101

Dear Mr. Fields:

RE: Module #1 (Additional Information)
Residual Waste Disposal (Water Treatment Residue)
Pennsylvania Power & Light Company (1)
Salem Township, Luzerne County
Amity Sanitary Landfill (ID #100932)
Taylor Borough, Lackawanna County

As a result of an initial review of a module #1 request for disposal on May 15, 1985, additional information is being requested. Before final disposition is offered regarding this module, the following information must be provided:

1. P. P. & L. must provide this office with the type of additional treatment equipment that has been placed on line.
2. P. P. & L. must provide this office with the solids content of 3 separate samples of the water treatment sludge.

Please provide the information requested within 30 days of receipt of this letter so that final disposition on your application can be made.

February 25, 1986

The request for additional information is not an indication of a major change in the Module #1 submission. When the additional information is received by this Bureau, the review process will not be delayed since no extension of the public review period will take place.

If you have any questions, please contact me at (717) 826-2516.

Very truly yours,

THEODORE O. GEARY
Regional Chemist
