SUSQUEHANNA STEAM ELECTRIC STATION
WITHDRAWAL OF OPERATING PERMIT NO. 40-320-00106
CCN 741326 FILE R9-8C
PLE- 8366

Dear Mr. Wilkes:

The Pennsylvania Power and Light Company (PP&L) requests that the operating permit for the Unit 2 Auxiliary Boiler (Nebraska Boiler) be withdrawn by the Pennsylvania Dept. of Environmental Resources (Pa. DER) since this boiler is not operational at this time. Also, it has not been used in over a year and both fuel oil and water lines have been disconnected. As we discussed with Mr. P. Disabella of your office during a May 22, 1986 telephone conversation, PP&L is reviewing two options for future use of this boiler. The first option is to sell the boiler and the second is to use the boiler sometime in the future if the need arises. If PP&L selects option two an application will be submitted to the Pa DER for a new operating permit.

If you have any questions please call me at (215) 770-7889.

Respectfully yours,

Jerome S. Fields
Sr. Environmental Scientist-Nuclear
