Docket Nos. 50-387
50-388

Dear Ms. Adensam:

In accordance with Section 6.6 of the Susquehanna SES FSAR, performance testing of safety and relief valves shall be accomplished in accordance with the requirements of the 1980 Edition thru the 1981 Winter Addenda of the ASME Boiler and Pressure Vessel Code, Section XI, Paragraph IWV-3512, which invoked PTC 25.3-1976. PTC 25.3-1976 was intended for generic use with all power plant applications. Paragraph IWV-3512 of the proposed 1986 Edition of Section XI to the code invokes procedure OM-1-1981, Requirements for Inservice Performance Testing of Nuclear Power Plant Pressure Relief Devices. This procedure is intended for use with nuclear facilities. We request your approval of our use of Procedure OM-1 at Susquehanna SES. Your response is requested by March 1, 1987.

If you have any questions, please contact us.

Very truly yours,

H. W. Keiser
Vice President-Engineering & Construction-Nuclear
