SUSQUEHANNA STEAM ELECTRIC STATION
IMPLEMENTATION OF PROPOSED AMENDMENT 34 TO NPF-22
PLA-2826 FILES A17-2, R41-2

Docket No. 50-388

- References:
1. Letter, PLA-2602, H.W. Keiser to E. Adensam, dated March 27, 1986.
 2. Letter, PLA-2631, H.W. Keiser to E. Adensam, dated April 18, 1986.
 3. Letter, PLA-2669, H.W. Keiser to E. Adensam, dated June 26, 1986.

Dear Ms. Adensam:

Via references 1 and 2, PP&L submitted Proposed Amendment 34 to the Susquehanna SES Unit 2 Operating License (NPF-22). The proposal consisted of changes to the Technical Specifications in support of modifications to enhance the capability of the Drywell Cooling system. Reference 3 requested that the proposal be held in abeyance due to a PP&L decision to delay the modifications.

The purpose of this letter is to inform you that this modification will be performed during the Unit 2 second refueling and inspection outage, which is currently scheduled to begin in March, 1988. Consequently, we request that the NRC staff reactivate proposed amendment 34, that approval be issued prior to the start of the March, 1988 outage, and that the approval be conditioned to become effective prior to startup following that outage.

Any questions on this request may be directed to Mr. R. Sgarro at (215) 770-7855.

Very truly yours,
