Docket No. 50-388

Reference: PLA-2843, B.D. Kenyon to Dr. W.R. Butler, dated  
April 15, 1987.

Dear Dr. Butler:

The purpose of this letter is to formally withdraw the referenced proposed amendment, which was an emergency change request. We do, however, wish to express our appreciation for the efforts put forth by Messrs. M.C. Thadani and J.A. Kudrick of the NRC staff in support of the review of our request, prior to our determination that it would no longer be needed. As you are aware, Unit 2 entered into a forced outage on April 16, 1987, thereby precluding the need for the emergency change. The reason for the emergency request, an inoperable vacuum breaker test circuit, was repaired in the forced outage and is currently operable.

Very truly yours,

H. W. Keiser  
Vice President - Nuclear Operations
