Dear Ms. Hull:

Enclosed please find the August 1987 Turbidity Monitoring Report for Pennsylvania Power and Light Company's Susquehanna Steam Electric Station. All reported values are within the maximum contaminant level required by the Pennsylvania Department of Environmental Resources.

A sample was missed on August 4 due to unanticipated work activities and a miscommunication between the mid-shift and day shift workers. Appropriate actions have been taken to avoid such problems in the future.

If you have any questions, please contact me at (215) 770-7889.

Very truly yours,

Curtis K. Doyle for
