Mr. Carlton C. Kammerer
Nuclear Regulatory Commission
Room 1159
1717 H Street N.W.
Washington, D.C. 20555

Dear Mr. Kammerer:

I have been advised by the President of Louisiana Power and Light Company in New Orleans that the NRC has delayed the issuance of the operating licenses for Waterford-3 and Grand Gulf Unit One nuclear units.

Such delays will be extremely costly to Louisiana consumers, as illustrated in the attached telegram. I would appreciate knowing the reasons for the delays and the new time frame NRC has devised for issuance of the operating licenses.

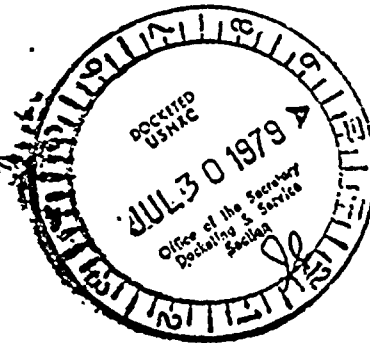

I look forward to your prompt response to this inquiry.

With kindest personal regards, I remain

Sincerely yours,

W. Henson Moore
Member of Congress
