SUBJECT: NRC INVESTIGATION REPORT NO. 1-2016-016

Dear Mr. Baez:

This letter refers to an investigation by the U.S. Nuclear Regulatory Commission (NRC) Office of Investigations (OI) conducted at Entergy Nuclear Operations, Inc.'s (ENO's) Indian Point Energy Center (Indian Point). The investigation, which was completed on February 8, 2017, was conducted, in part, to evaluate whether you accepted improper General Employee Training (GET) exam assistance from other BHI Energy employees at Indian Point, such that the NRC would question whether you had appropriately passed the exam. Based on the information gathered during the OI investigation, the NRC did not identify sufficient evidence to conclude that you accepted improper assistance on GET exams that would impact the exam results. Therefore, the NRC is not taking any enforcement action against you.

You are not required to respond to this letter. However, should you choose to respond, your response should be sent to the U.S. Nuclear Regulatory Commission, ATTN: Regional Administrator, Region I, 2100 Renaissance Boulevard, Suite 100, King of Prussia, PA 19406, and marked "Open by Addressee Only," within 30 days of the date of this letter. This letter, and your response, if you choose to submit one, will not be made available for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agency-wide Documents Access and Management System (ADAMS). In addition, this letter will be maintained by the Office of Enforcement in an NRC Privacy Act system of records, NRC-3, Enforcement Actions Against Individuals. This system, which is not publicly-accessible, includes all records pertaining to individuals who are being or have been considered for enforcement action, whether such action was taken or not. The NRC-3 system notice, which provides detailed information about this system of records, can be accessed from our Web site at <http://www.nrc.gov/reading-rm/foia/privacy-systems.html>.

Please note that final NRC investigation documents, such as the OI report described above, may be made available to the public under the Freedom of Information Act (FOIA) subject to redaction of information appropriate under the FOIA. Requests under the FOIA should be made in accordance with 10 CFR 9.23, Requests for Records. Additional information is available on the NRC website at <http://www.nrc.gov/reading-rm/foia/foia-privacy.html>.

Should you have any questions regarding this letter, please contact Ms. Marjorie McLaughlin at 610-337-5240.

Sincerely,

A handwritten signature in black ink, appearing to read "M. L. Scott", with a long horizontal flourish extending to the right.

Michael L. Scott, Director
Division of Reactor Projects
