USNRC Reference: DOCKET NO. 71-9316

Mr. Saverot:

Alpha-Omega Services, Inc. (AOS) would like to supplement our request for an amendment to Certificate of Compliance USA/9316/B(U)-96.

In addition to our request dated May 17, 2017, we would like to revise Condition 5.(b)(1) of the Certificate of Compliance (CoC). Currently this condition includes the requirement that “Normal Form material shall be enclosed in an inner container”. We request that this condition be revised to read “Dispersible Normal Form material shall be enclosed in an inner container.” The change in language will make the CoC consistent with Section 1.2.2 of the Safety Analysis Report.

We hope that the preceding is in accordance with your understanding. If you have any questions, please feel free to contact us.

Best Regards,
