REVIEW OF INSTRUMENTATION FOR EARTHQUAKES FOR DRESDEN UNIT 2 FULL TERM LICENSE - DOCKET NO. 50-237

Our scope of review for Dresden Unit 2 full term license review inadvertently assigned the instrumentation for earthquake review to the MEB rather than SEB. We request that SEB review the seismic instrumentation on the schedule shown in the Bluebook network for this full term license review. L. Shao has already been informed and has assigned K. Kapur to this review.
