Subject: [External_Sender] Industry white papers on first three TSTF-505 issues to support June 6 teleconference
Attachments: Clarifying CRMP vs RICT.DOCX; Description of Common Cause Failure Treatment in the TS Risk Informed Co....docx; Eliminate Required Actions not Modeled in the PRA.DOCX

Michelle,

The attached three white papers provide industry input in preparation for the June 6 NRC/NEI/TSTF teleconference on TSTF-505 issues. These papers discuss:

- Description of Common Cause Failure Treatment in the TS Risk Informed Completion Time (RICT) Program
- Clarifying the NEI 06-09 term "Configuration Risk Management Program" in the TS Risk Informed Completion Time (RICT) Program
- Eliminate Required Actions Not Modeled in the PRA

We look forward to discussing these topics with the NRC staff.

Should you have any questions, please contact me or Victoria Anderson of NEI.

Brian
