SUBJECT: ARCH COAL (PARENT COMPANY OF ICG BECKLEY, LLC), ACCEPTANCE OF
NOTIFICATION OF EMERGENCE FROM BANKRUPTCY, MAIL CONTROL NO. 590171
AND 590198

Dear Mr. Swan:

This is in reference to your e-mail dated May 25, 2017, and the letter dated October 19, 2016, from Terry Allison, Radiation Safety Officer, at the Arch Coal facility in Eccles, West Virginia, notifying us that Arch Coal and its subsidiaries emerged from Chapter 11 Bankruptcy on October 5, 2016. No further correspondence on this matter is required.

Unrelated to the Chapter 11 Bankruptcy, we noticed that on your letterhead and in some recent correspondence, that you and Mr. Allison refer to ICG Beckley, LLC as the licensee for the NRC License No. 47-31475-01 that authorizes the use and storage of radioactive material at 279 Wolf Run Road, Eccles, West Virginia. License No. 47-31475-01 is issued to Arch Coal Inc., and the license has not been amended or requested to be amended to reflect a different licensee. We are aware that ICG Beckley, LLC, is a subsidiary of Arch Coal, however if the license is being managed by a subsidiary, the license must be amended promptly to reflect the current management structure and organization.

Your cooperation is appreciated.

Sincerely,

John Miller, Health Physicist
Commercial, Industrial, R&D
and Academic Branch
Division of Nuclear Materials Safety
Region I

License No. 47-31475-01
Docket No. 03038551
Mail Control Nos. 590171 & 590198
