SUBJECT: CB&I FEDERAL SERVICES LLC, CONSENT TO TRANSFER LICENSE, MAIL
CONTROL NO. 594383

Dear Mr. Boone:

By the letter dated March 15, 2017, CB&I Federal Services LLC requested written consent by the U.S. Nuclear Regulatory Commission (NRC) to a proposed indirect transfer of control of NRC Materials License No. 20-31340-01 (ADAMS package accession number ML17089A535). Based on the information you provided, we understand that as a result of the sale of CB&I Federal Services LLC to Veritas Capital, control of CB&I Federal Services LLC will be indirectly transferred to The Veritas Capital Fund V L.P. and The Veritas Capital Fund VI L.P. We understand that this transfer will not result in any change to the location of use, materials, persons using licensed material, or persons responsible for radiation safety at the licensed facility. We also understand that the licensee name will change after the transaction closes. We further understand that you will submit to the NRC an application for a license amendment to reflect the name change shortly after closing, once the new company name is identified.

Based on the above understandings, as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's safety review of the request, the NRC consents to the proposed transfer. Please note that you will need to notify us promptly, in writing, after the transaction has been finalized and include a signed copy of the sales agreement confirming completion of the transaction. If this planned sale has not been consummated within 30 days of the date of this letter, please notify us in writing. If you have any questions regarding this letter, please contact Laurie Kauffman at (610) 337-5323 or via electronic mail at Laurie.Kauffman@nrc.gov.

Based on the above understandings, the NRC consents to the proposed indirect transfer of control of NRC Materials License No. 20-31340-01. Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.
