SUBJECT: ISSUANCE OF AMENDED REGISTRATION CERTIFICATE NR-1101-D-102-E

Dear Mr. Gleason:

This is in response to your letter dated May 15, 2017, requesting a correction to the dimensions of the μ Raid device. We have completed your request. A copy of the amended registration certificate NR-1101-D-102-E is enclosed.

You must distribute the products in accordance with the statements and representations contained in your application, with enclosures thereto, and the information set out in your registration certificates. As a general rule, you must request and obtain an amendment to the certificate before you make changes or modifications to the information submitted to obtain the certificates.

Note that a certificate of registration, by itself, does not convey authorization for possession or distribution of radioactive sources or devices. A U.S. Nuclear Regulatory Commission or Agreement State license is required for possession and distribution of radioactive materials, sources, or devices.

Please read over the registration certificates in its entirety and notify us immediately of any errors or omissions.

You are obligated to notify us promptly in writing if you decide to no longer manufacture, distribute, or offer service support for the product.

G. Gleason
