Dear Mr. Leedom:

The Pennsylvania Power and Light Company (PP&L) requests permission to discharge ten (10) cubic yards of river silt and sediment from the Susquehanna Electric Station discharge diffuser into the Susquehanna River. This activity was previously conducted in an environmentally sound manner in 1983 and 1984.

A work plan was submitted to the Department of the Army, Baltimore District, Corps of Engineers, on August 1, 1983 (PLE-3558). Plans are to conduct this activity in May 1985.

If you have any questions, please contact me at (215) 770-7889.

Respectfully yours,
