FOLLOW UP TO MARCH 31, 1988 MANAGEMENT
MEETING ON APPENDIX R
PLA-3024 FILE R41-2, A17-8

Docket Nos. 50-387
and 50-388

Dear Mr. Russell:

This letter is in response to commitments made during the March 31, 1988 Management Meeting on Appendix R. During that meeting PP&L committed to review the adequacy of existing compensatory actions. We have reviewed the compensatory actions and have added a third fire watch to each shift to cover the areas outside the Health Physics control zone.

Also PP&L committed to review all the NCR's which were written as a result of the revised fire hazards analysis to assure that reportability under 10CFR50.73 was properly addressed. PP&L has concluded that approximately 75% of the 112 NCR's do not address reportable problems. The remaining NCR's address situations which are reportable. Details of this information will be contained in an LER which will be submitted within the next 30 days.

The revised Fire Protection Review Report (FPRR) is on schedule and will be submitted by June 30, 1988. Shortly after the FPRR is submitted PP&L will arrange a meeting through NRR to discuss the contents of the report.

Very truly yours,

H. W. Keiser
