Re: Decommissioning Funding Plan Update

Dear Mr. Lawyer:

Below please find the additional information you requested during our phone conversation on Monday May 15, 2017.

Specifically, you requested additional information on how BIPI will provide “the means for adjusting cost estimates and associated funding level periodically over the life of the facility; consideration of spills of radioactive material producing additional residual radioactivity in onsite subsurface material; and waste inventory increased above the amount previously estimated”

BIPI will formally assess and recalculate our decommissioning funding requirements every three years, as required. In addition, we will continuously assess our use and if use escalates, which in not anticipated, we would recalculate our funding levels and make necessary changes.

In addition, as you know, BIPI maintains a Letter of Credit for \$1,125,000, which is above our funding level cost estimates.

Please don't hesitate to contact me if you have any questions.

Yours sincerely,

William Galdenzi, CIH, CSP
