Docket Nos. 50-387  
and 50-388

Dear Mr. Russell:

In response to Bulletin 88-03, PP&L has concluded that GE HFA Latching Type Relays are not used in Class 1E applications at the Susquehanna Steam Electric Station. This conclusion is based on a review of design documentation consisting of electrical drawings, computer searches, discussions with personnel involved in the design process of the plant and a review of a limited number of selected specific vendor equipment.

If you have any questions, please contact R.D. Kichline at 215-770-4181.

Very truly yours,

H. W. Keiser
