SUSQUEHANNA STEAM ELECTRIC STATION  
ATWS  
PLA-3070                      FILES R41-2, S053A

Dear Dr. Butler:

The purpose of this letter is to notify NRC that modifications necessary to meet the requirements of the ATWS rule were installed in Unit 2 during that Units 2nd Refueling and Inspection Outage. Installation of these modifications satisfies all PP&L's commitments to 10CFR50.62 on Unit 2.

If you have any questions, please contact D. J. Walters at (215) 770-6536.

Very truly yours,

H. W. Keiser

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for ensuring the integrity of the financial statements and for providing a clear audit trail.

2. The second part of the document outlines the various methods used to collect and analyze data. These methods include direct observation, interviews, and the use of specialized software tools.

3. The third part of the document describes the process of identifying and measuring the variables that are being studied. This involves a careful selection of indicators and the development of a measurement scale that is both valid and reliable.

4. The fourth part of the document discusses the importance of ensuring the reliability of the data collection process. This involves using standardized procedures and conducting pilot tests to identify and address any potential sources of error.

5. The fifth part of the document describes the process of analyzing the data and drawing conclusions from the results. This involves using statistical techniques to test hypotheses and to estimate the magnitude of the effects being studied.

6. The sixth part of the document discusses the importance of reporting the results of the study in a clear and concise manner. This involves writing a report that is both informative and easy to read, and that provides a clear summary of the findings and their implications.
