SUSQUEHANNA STEAM ELECTRIC STATION
EXEMPTION REQUEST FROM REQUIREMENTS OF
10CFR20.103(c)(2)
PLA-3089 FILE R41-2

Docket Nos. 50-387
and 30-388

Dear Mr. Stello:

Pursuant to 10CFR20.501 Pennsylvania Power and Light Company requests an exemption from the requirements of 10CFR20.103(c)(2). This section requires in part, a determination by a physician at least once every 12 months to assure that an individual is physically able to use the respiratory protective equipment in an environment containing airborne radioactive material.

PP&L requests an exemption to the time interval requirement of 10CFR20.103(c)(2) on physical examinations, to permit the administration of physicals once "every 9 to 15 months; provided that the total time over any three consecutive physical examination periods does not exceed 39 months." This exemption would allow shift personnel the ability to schedule their annual training and physicals at the same time; therefore, increasing the efficiency and administrative flexibility of this process.

We request this exemption to be made effective by September 1, 1989. This request is similar to one granted the Carolina Power and Light Company on July 8, 1988 (53FR26915).

Any questions on the above request should be directed to R.D. Kichline at 215-770-4181. Pursuant to 10CFR170 the appropriate fee is enclosed.

H. W. Keiser
