REVISED RESPONSE TO GENERIC LETTER 88-01
PLA-3136 FILE R41-1D

Docket Nos. 50-387
and 50-388

Reference: PLA-3060, H.W. Keiser to USNRC "Response to Generic Letter 88-01"
dated August 10, 1988.

Dear Dr. Murley:

The purpose of this letter is to modify our commitment in the referenced PLA to add a statement to the Technical Specifications in the section on ISI that the Inservice Inspection Program for piping covered by the scope of Generic Letter 88-01 will be in conformance with the staff positions on schedule, methods and personnel, and sample expansion. Specifically, we have decided not to amend Technical Specifications to include this statement since it serves a more useful purpose if placed within alternative documents that deal with the ISI program. Our commitments in regard to the staff positions in the Generic Letter as outlined in the referenced PLA, however, remain unchanged.

If you have any questions, please contact Mr. J. B. Wesner at (215) 770-7906.

Very truly yours,

H. W. Keiser
