Pennsylvania Power & Light Company
ATTN: Mr. Harold W. Keiser
Senior Vice President - Nuclear
2 North Ninth Street
Allentown, Pennsylvania 18101

Gentlemen:

Subject: NRC Region I Combined Inspection Report Nos. 50-387/89-06 and
50-388/89-06

The enclosed report documents a routine safety inspection conducted by inspectors of this office on March 12, 1989 - April 8, 1989, at the Susquehanna Steam Electric Station (SSES), Salem Township, Pennsylvania. The inspection covered plant operations, surveillance and maintenance activities for both units. At the conclusion of the inspection, Mr. J. Stair summarized the inspection findings to Mr. R. Byram and other members of your staff.

The inspector noted that many corporate staff and contractors working at the corporate office do not take access training for SSES. Consequently, they do not receive formal training which addresses alternate avenues available to them to raise safety concerns. As stated in the report you have agreed to review this concern and inform the resident inspectors of your course of action.

Your cooperation with us in this matter is appreciated.

Sincerely,
