Docket Nos. 50-387
and 50-388

Dear Dr. Butler:

PP&L has reviewed Supplement 1 to Bulletin 88-10 on nonconforming molded-case circuit breakers and has concluded that no corrections or changes to our original report (PLA-3152 dated March 31, 1989) are necessary. The information provided in the supplement was known to PP&L during our original investigations as a result of conversations with the NRC technical contacts.

Very truly yours,

H. W. Keiser
