1990 NRC OBSERVED EMERGENCY
PREPAREDNESS EXERCISE
PLA-3314 FILE A17-13

Docket Nos. 50-387
and 50-388

Dear Dr. Butler:

PLA-3247, dated August 22, 1989, had previously requested May 2, 1990 as the date for the 1990 observed emergency preparedness exercise at Susquehanna SES. After discussions with personnel at Region I it was concluded that May 2 was not a satisfactory date. Consequently, we rescheduled the observed exercise for April 18, 1990, pending your approval.

Your concurrence with the April 18th date is requested by January 15, 1990. Should you have any questions regarding this request, please contact Mr. James M. Minneman at 717-542-3233.

Very truly yours,

H. W. Keiser

1990 NRC OBSERVED EXERCISE CYCLE

Another conflict has arisen with our scheduled NRC exercise. The NRC will be conducting initial operator exams the week of April 9. It would be possible to work the April 10 emergency exercise around this; however, it seems more prudent to move the exercise back a week and avoid the conflict completely.

I would like your approval to change the drill date to April 18 and to schedule the practice drills for February 13 and March 13. I believe that these are the best dates available considering NRC conflicts, holidays, and our outage and drill schedules. Bill Lazarus of the NRC is reserving the week of 4/16 for Susquehanna. Upon receiving your approval I will revise the 5-year schedule and request Licensing to formally petition the NRC to reserve April 18 as our drill date.

James M. Minneman
