Gentlemen:

Subject: Final Exercise Report of the February 22, 1989, Exercise of Off-site
Radiological Emergency Preparedness Plans for the Susquehanna Steam
Electric Station

This letter transmits the Federal Emergency Management Agency (FEMA) report of
the February 22, 1989 Susquehanna Steam Electric Station full participation emergency
exercise.

The report indicates that a deficiency was identified in Briar Creek Borough regarding
their non-participation during the exercise. Correction of this deficiency was
demonstrated at a remedial exercise conducted on June 1, 1989. Based upon the
results of both the exercise and remedial exercise, FEMA has determined that off-site
emergency preparedness is adequate to protect the health and safety of the public at
the Susquehanna Steam Electric Station. A schedule of corrective actions is included in
the exercise report which addresses the current areas requiring corrective action.

If you have any questions concerning this matter, please contact Mr. Craig Conklin of
my staff at (215) 337-5342.

Sincerely,

Original Signed By:
Ronald R. Bellamy
