SUSQUEHANNA STEAM ELECTRIC STATION
REGION I EFFORT ON DIESEL LCO EXTENSION
PLA-3451 FILES A17-2/R41-2

Dear Mr. Martin:

As you are well aware, PP&L recently undertook an intensive effort to repair diesel generator intercoolers that were inadvertently damaged during maintenance. In order to avoid a dual unit shutdown, we requested that your staff perform an expedited review of our request for a waiver of compliance that would temporarily extend the LCO for the diesel generators. Upon determining that our request was reasonable, your review was completed in a fast, quality manner that supported our needs.

PP&L wishes to extend our gratitude for the efforts of the Region I staff, which were of particular note in that they had to occur over the Labor Day weekend.

Very truly yours,

H. W. Keiser
