REVISED RESPONSE TO
NRC COMBINED INSPECTION REPORT
(EOP) (387/90-80; 388/90-80)
PLA-3466 FILES R41-1C, R41-2

Docket Nos. 50-387
and 50-388

Dear Mr. Gallo:

PP&L is providing a revised EOP response as requested by your staff during a September 28, 1990, telephone call where PP&L explained our priority system to resolve open EOP items identified in your inspection report 387/90-80 and 388/90-80. This teleconference resulted in PP&L reviewing and revising the priorities of a number of open items identified in the EOP inspection. Those items are annotated with an asterisk (*) on the attachment to this letter.

PP&L has prioritized open EOP issues into three categories. Priority 1 items warrant early consideration and are being actively pursued to resolution. The priority 1 items identified on the attachment will be completed, to include any training, by June 30, 1991. Priority 2 items require EOP revisions to increase efficiency of execution; however, the EOPs as currently written are adequate. Priority 2 items will also be completed by June 30, 1991. Priority 3 items are enhancements only and do not affect execution of the EOP's. Resolution of priority 3 items identified on the attachment will be addressed either by June 30, 1991, or in conjunction with our EOP upgrade to Revision 4 of the BWROG EPG's. The upgrade is currently scheduled to be completed by January 31, 1993. Training associated with this upgrade will also be completed by January 31, 1993.

TEO1
11

PP&L believes this response addresses your concerns with our initial EOP response, and in addition clarifies our EOP issues resolution process for those items identified in your inspection report. We trust the commission will find the response acceptable.

Very truly yours,

H. W. Keiser
