Docket Nos. 50-387
and 50-388

Dear Mr. Miller:

As stated in our letter PLA-3535 dated April 26th, 1991, Pennsylvania Power & Light Company committed to revise its engineering studies to reflect that the contacts from the 4Kv circuit breaker drawout position switches will be used instead of the mechanically operated switches for inputs to the computer and annunciator circuits. Attached for your use are the following revised documents:

- SEA-EE-183 - Evaluation of Unit 1 Computer Class 1E - Non-Class 1E Interfaces
- SEA-EE-231 - Evaluation of Welded Contacts of Class 1E Circuit Breaker Auxiliary Switches and Limit Switches Used for Unit 2 and Common Annunciator Inputs

If you have any questions, please contact Mr. C.T. Coddington at (215) 774-7915.

Very truly yours,

H. W. Keiser
