SUSQUEHANNA STEAM ELECTRIC STATION  
FOURTH QUARTER SAMPLING OF PWS ID NO. 2400995  
CCN 741326 FILE R9-8B  
PLE- 15075

---

Dear Mr. Burcicki:

This letter is being submitted to the Pennsylvania Department of Environmental Resources (PaDER) in response to our recent telephone conversation about the need for fourth quarter microbiological sampling at the Riverlands Recreation Area well water supply (PWS ID No. 2400995). As I indicated, PP&L received a reminder notice dated November 25, 1991, from the Harrisburg PaDER office of Community Environmental Control indicating that a microbiological sample was required.

The Riverlands' water supply system operates normally during the period of April 1 through September 30 (second and third quarters). Therefore, fourth quarter coliform bacteria samples are not routinely collected. However, when favorable weather occurs in October, this system could remain open to the public. If so, PP&L will then take a fourth quarter microbiological sample.

If you have any questions or comments, please call me at (215) 774-7889.

Sincerely,

J. S. Fields  
Sr. Environmental Scientist-Nuclear
