Hi Tammy,

I received the following Change of Ownership request via an e-mail. The gentleman that I talked to indicated that he had been working with Laura Sender on a licensing action. Note that I initially was not able to open the attachment and had to have the attachment released by security (CSC). Based on a conversation with Frank, I added them on cc.

Thanks,

Sandy

Ms. Frazier,

Our radioactive Materials License is currently under an amendment to change the RSO from Chris Loyd to Glen Hodson. We have additional requests to reflect the upcoming changes to our company. The attached change of ownership will document the transfer of ownership of all nuclear density/moisture gauges and office storage locations under Terracon Consultants, Inc. purchase agreement with Earth Exploration Inc. All Earth Exploration, Inc. location radiation safety officers and storage locations listed on NRC Radioactive Materials License # 13-26408-01 will remain the same. The license is under an amendment Earth Exploration will continue to operate under NRC Radioactive Materials License # 13-26408-01 until fully integrated and operating under the Terracon federal Tax ID. The purchased company (Earth Exploration, Inc.) will be a company of Terracon Consultants, Inc. under NRC Radioactive Material License 030-32176.

Please do not hesitate to call me with any questions or if we need to provide any additional information.
