SUMMARY

On 5/5/17, I and Sara Forster talked to Ms. Laura Smith (MPC regarding the need for another 10 CFR 35.392 authorized user to sign as the preceptor. S. Forster explained that NRC no longer authorizes new proposed users for 10 CFR 35.300 limited to diagnostic use which is what Dr. Zick is authorized for. Since regulations changed in October 2002, the NRC authorizes the type of radionuclides and amounts used. Therefore, Dr. Payne is seeking authorization for I-131 equal to or less then 33mCi. Ms. Smith acknowledged that she understood she needed to provide a new Form 313A AUT along with a new preceptor attestation.
