Subject: [External_Sender] against smrs on the clinch river

I wish to speak against the idea of building small modular reactors on the clinch.

it is expensive and unfamiliar technology. it uses too much water.
we need to move in the direction of clean alternative solutions.
there is so much unknown about this technology, and the clinch river is a clean river now.

do not promote this technology. thank you

Patricia Grimes , resident of Hancock county, area of the clinch river.

sent to the u.s. nuclear regulatory commission.
