SUSQUEHANNA STEAM ELECTRIC STATION  
FIRE PUMP DISCHARGE  
REPAIR OF VALVE 0-22-038  
CCN 741326 FILE R9-8A  
PLE-15549

Dear Mr. Wilkes:

This letter is a follow-up of Pennsylvania Power & Light Company's letter, PLE-13646, January 21, 1992, concerning fire pump test discharges to the storm drains because of a damaged test line valve. As we previously indicated, repair of fire protection line valve 0-22-038 would be conducted during the 1992 Unit 1 refueling outage. This letter confirms that this repair has been completed and fire pump discharges will now return to the Unit 1 Circulating Water System.

We thank the Pennsylvania Department of Environmental Resources for their continued support.

Sincerely,

  
Jerome S. Fields  
Sr. Environmental Scientist-Nuclear
